Joe Goss, the pugilist, is dying in Boston for the properties of the strikers and the properties of the pr

mit a scheme of the directors of the Union Pacific Railway Company, and it seems to me, to-day, from every conceivable point of view, that it is a wise scheme, and more financially sound than any other which has been suggested.

Meanwhile it only remains for the Union Pacific to accept such terms as are imposed upon it. When the Thurman bill was passed the government practically took the control of this matter out of the company's hands. The plan its representatives had devised for meeting. The officials of the Texas Pacific have asked the authorities to protect the men. The sinking fund plan was substituted for it. The sinking fund plan was substituted for the auxiliary railroad system plan. Since then the attitude of the company has been an expectant one. It was waiting to see what rule Congress in its wisdom shall impose, and when that rule is imposed it will five up to it. If, upon a fair trial, the burden exceeds the company's strength the directors do not doubt that in the interest of all concerned Congress will modify it. This, therefore, is the view which the directors now

STAFF CORRESPONDENCE OF THE TIMES. which appeared in yesterday's issue of this paper, the railroad "magnet," being asked, "What do you think of the work of the Legislature?" replied that he considered the action of the Senate in neglecting to pass the irrigation bills "an outrage upon the people." Mr. Crocker then went on to give reasons for his opinion, putting himself squarely on record as being in full sympathy with the irrigationists, and, therefore, with the people of Southern California as a mass.

Southern California operation of the 26th session of the that Speaker Parks had voted against an apportionment in 1881, which assertion the latter promptly and flatly denied, and challenged Hazard for the Senate and Speaker of the House will drop at 12 o'clock m., on Saturday, the 7th instant, and an adjournment sine die take place. This determination, however, is liable to changes, as this is that the latter had accepted newspaper slang and misrepresentation for facts, and expressed his readiness to forfeit \$1000 if Hazard could prove that he (Parks) had opposed a proper apportionment at the session of 1881.

Mr. May said the gentlema this letter was written the legislative and lofty tumbling. On Saturday he weather-cock has faced about again.—

This means, if it means anything more than means, if it means anything more than sign a few days longer. Beyond the successful and the bill pass. This has happened more frequently in the Assembly than in the Senate, and is due in a great ture. The Constitution says that the terms of Senators shall be four years, and it is not in the province of this bear in the Senate to prolong the session a few days longer. Beyond the means, it it means anything more than sion a few days longer. Beyond the of the last one, to alter that time. The appropriation bills and a few bills for the Legislature in 1883 made a mistake, allen used to say, that the railroad is willing and anxious to meet its pecuniary obligations to the State and to the counties through which its lines the counties through which its lines in the sense of sites and the erection of the opinions of a large number of two or three eleemosynary institutions, nothing at all has been done. DRAINAGE CLAIMS.

The bill appropriating \$254,000 for the payment of claims under the drainage act, passed the Senate Wednesday ernoon, by a vote of 28 to 11. Under the guise of explaining his vote, Del Valle fired a broadside at the meas-ure, on the ground of its unconstitutionality. He occupied the floor for about Constitution and the law now in force, twenty minutes and was listened to and place us back where we should that on the bill, it brought the big guns of the Senate to their feet, and for the speech. It is needless to say that "Slickens" and the Heath amendment

The So-called "Nine-Hour Move-

A REPLY.

To the Editor of the Times-SIB: I think it is about time that the Carpenters' Union was giving us a "rest' on the nine-hour movement. I see by convexances.

C R Bates to Thomas, 3000.

C T Widney, J M Pirtle and Chas Busey, trying to bulldoze the merchants, business men and professional men of this city; and trying to prevent them from giving any work to ten-hour contractors.

Now, sir, I claim that the nine-hour the Times of last Tuesday that they giving any work to ten-hour contractors. Now, sir, I claim that the nine-hour

system was never fully established in this city. All the good, practical mechanics in this city do not belong to the union, but all the botch carpenters and serub workmen are members of Union No. 56. Of course there are many good workman I will show you five poor ones.

This continual harping on the ninehour movement has a tendency to make times dull in this city. People coming here from the East think twice before building, when they find out that the labor market is controlled by a set of men who cannot cut a rafter for a wood-shed. I have heard them talk in their own meetings, that when they geststrong enough, they would not let any man work on a building unless he joined the union. Now, sir, if this union should ever get strong enough, they would be the worst.

The Temple Company," "The Palomas Springs Company," "The Palomas Springs Company," "The Palomas Palore Co the union. Now, sir, if this union should ever get strong enough to enforce any such action, it would be the worst enemy a workingman could have, because they are not willing to grant the same right to others that they claim for themselves. I would say to the merchants, business men and prefessional men, don't be scared by their bulldozing notices in the papers, because they are not as strong now, by one third, as they were last summer, when they tried to establish the nine-hour movement and failed. Out of their list of about forty contractors, which they claim are working nine

Out of their list of about forty contractors, which they claim are working nine hours, there are not over ten responsible contractors. They have some down on their list as contractors who would not be allowed to figure on a job in some of the architects' offices in this city.

FINANCE AND TRADE.

Sy Telegraph to The Times.

New York, March 6.—Governments, quiet; 4½ per cents registered % higher at ili %; coupons advanced ½ to ili ½ bid. In railroad bonds prices in many cases show a fraction lower. Stocks, strong, very active; at the opening this morning first prices were generally ½ to ½ higher than at the close last evening, there was a further slight advance on which room traders realized to such an extent that a reaction was brought about, carrying quotations generally below the opening figures, this was again followed by a recovery and, although the market was less active after the first hour, it continued strong until between 1 and 2 o'clock, when the highest prices of the day were generally reached, the gains at that time being between 1 and 2 per cent for the most active list. A tendency to yield a fraction, which showed itself before 2 o'clock, developed in the last hour into a decided break, during which the advances of the day were entirely lost in many cases, and the market closed

hour into a decided break, during which the advances of the day were entirely lost the many cases, and the market closed weak at a deciline. While this was the general course of prices, there were several important modifications, giving the market an irregular and, at times, feverish character. It is self-evident that a physician paying particular attention to a class of cases attains great skill, and physician paying particular attention to a class of cases attains great skill, and physician in regular practice all over the country, knowing this, frequently recommend cases to this oldest office in America, where every known appliance is resorted to, and the proved good remedies of all ages and countries are used. A whole house is used for office purposes, and all are treated with skill in a respectful manner; and, knowing what to do, no experiments are made. On account of the great number of cases applying, the charges are kept low, often lower than is demanded by others. If you secure the skill and get a speedy and perfect life cure, that is the important matter. Leucorrhœa cured in four treatments. It is the most troublesome disease known to the female sex.

ople Who Live in Them Should Not Throw Stones. this city called the attention of a TIMES circular issued to the fruit trade in the east, and which has had a wide circulation. The circular bears the mark of a Chicago firm, but the matter contained in it shows plainly that it was writen in Southern California, probably by our Riverside neighbors. The statements

to which our fruit growers have a right to take exception are as follows: "These Riverside oranges should not be "These Riverside oranges should not be confounded with those raised in Los Angeles and vicinity. The Riverside orange is very fine in color, rich and delicious in flavor, and possesses excellent keeping qualities. The Los Angeles oranges, owing to their having been grown near the sea, have a coarse skin, covered with smut, presenting an unsatisfactory appearance. The fruit does not have that fine rich flavor of the Riverstde orange, as the climate and temperature of orange, as the climate and temperature of Los Angeles county is not conducive to the finest qualities of the orange."

Another extract is: Another extract is:

"The fancy Riverside oranges are of the finest color, are the most delicate in flavor and are the best keeping fruit in the world, and it is a pleasure for us to offer this fruit to the trade. Some of our competitors may make lower prices on California oranges, but if they do it will be on the Los Angeles fruit, which is by no means to be compared with the fancy Riverside oranges. Always buy the best and you will be sure to make money and increase your trade."
